**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Amy Pulliam on May 11, 2005.

2. The application has been amended as follows:

Replace the abstract with the following:

The present invention provides a biodegradable bag which can be heat-sealed at low temperature, does not develop corrugation, has transparency, and has degradability in the natural environment. Laminates including a biaxially oriented film of which the major component is a polylactic acid-family polymer, and a film of which the major component is an aliphatic polyester having a predetermined structure are heat-sealed so that the biaxially oriented film of which the major component is the polylactic acid-family polymer will be an outer layer.

Art Unit: 1772

3. The following is an examiner's statement of reasons for allowance: The closest prior art Ebato et al fails to teach the first layer of the biodegradable bag consists of aliphatic polyesters of formula (1) having a crystallizing melting heat of 45 to 55 J/g. Ebato et al teach that the first layer of the biodegradable bag has lactide as the primary material in the layer and is co-polymerized with aliphatic polyester, but does not teach the first layer from aliphatic polyesters alone. Ebato et al actually teaches away from using aliphatic polyesters alone, because the layer is formed from lactide, with polyester added, therefore the lactide is a necessary component of the layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher P Bruenjes whose telephone number is 571-272-1489. The examiner can normally be reached on Monday thru Friday from 8:00am-4:30pm.
